- Colored denim

Shopping & Styling Tips

USE WHAT YOU HAVE

Shop your own closet for pieces you may already have from this list and check them off before you go shopping. Capsule wardrobes are about having less than more so there's no sense in storing 2 of the same item.

WHAT DO YOU MEAN BY NEUTRAL?

Either black, grey, navy, tan, or any other subtle color that would mix well with multiple styles.

TAILOR YOUR PIECES TO YOU

If you prefer certain fabrics, patterns, or styles that aren't outlined in our list, go with pieces you're more comfortable with (ie. denim over chino shorts, midi dress over maxi dress, etc.) Most pieces can be swapped out seamlessly!

PLAY WITH THE STYLE

Get a cool and casual look by either knotting the tank top on the side or tying the long sleeve button-up at the waist.
